

# JEMEKK LONG/SHORT FUND L.P.

Inception date: July 2004

Updated as of March 31, 2024

The Jemekk Long/Short Fund is a Canadian focused, multi-strategy, alternative investment fund whose approach is primarily catalyst driven across a range of small- to mid-cap companies. The multi-strategy approach includes judicious investments, both long and short, across equities, converts, fixed income and options. This diversity affords the funds an opportunity to deliver capital growth with the proper diversification to minimize the volatility and risk that a singular approach would expose investors to. In addition to this, the fund continually diversifies across names, sectors and capital market instruments to reduce the risk inherent in smaller, less liquid investments.
