JEMEKK LONG/SHORT FUND L.P.

Inception date: July 2004
Updated as of: September 30, 2026

The Jemekk Long/Short Fund is a Canadian focused, multi-strategy, alternative investment fund whose approach is primarily catalyst driven across a range of small- to mid-cap companies. The multi-strategy approach includes judicious investments, both long and short, across equities, converts, fixed income and options. This diversity affords the funds an opportunity to deliver capital growth with the proper diversification to minimize the volatility and risk that a singular approach would expose investors to. In addition to this, the fund continually diversifies across names, sectors and capital market instruments to reduce the risk inherent in smaller, less liquid investments.

Benchmarks are quoted in Total Returns. All returns are Compounded Annual Growth Returns (CAGR). Series A performance until Oct 2018, Series F thereafter. The TSX Composite Index and TSX Small Cap Index comparative performance is provided for illustrative purposes only – they are widely followed indices but are not considered benchmarks due to differing holding composition compared to the Jemekk Long/Short Fund LP. The composition of the Funds' portfolio could differ significantly from these indices due to the investment strategy employed, and includes differences such as use of short positions, varying fund net exposure, varying sector exposure, and investing in small and mid capitalization stocks. Please see "Investment Strategies" in the Confidential Offering Memorandum for more details.
